Must have at least 2 dynamic components and be responsive

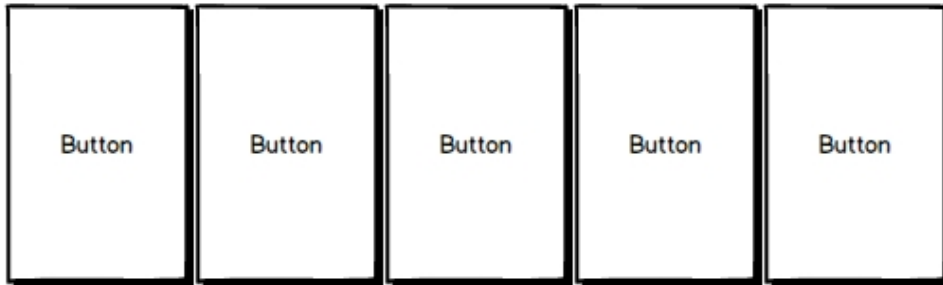

I want to have a scroll page with my logo at top center, then a responsive jquery menu with my links, an about section, images of my favorite projects (possibly in a carousel), then a list of links to all my projects at the bottom. Possibly a back to top button if it works with the design.

	headings	content		container
		logo		
		menu		responsive jquery menu
	h2	about		
	h2	favorites		maybe carousel, modals, or tool tips
	h2	links
