Icons in web design

The purpose of this topic page is to help Web Designers learn more about icons in web design and explains how to use them to help support content on the sites they will be designing. The website that I composed will assist them and includes some interesting articles on how to use Icons, the purpose and placement of the Icons, information on how to choose your style, why and when to use Icons, and the three attributes of effective Icon design.

# Website Content Plan

## Business Goals

This is  
to help  
web Designers

Teach them  
to Design  
with icons  
on the  
page

How to  
Design icon  
for web.

## What Visitors Want

tips to  
help  
them

easy  
access to  
info

Blog (maybe)  
Support  
from  
others

## What Makes My Biz Different

lots of  
info

updated  
links

helpful  
content

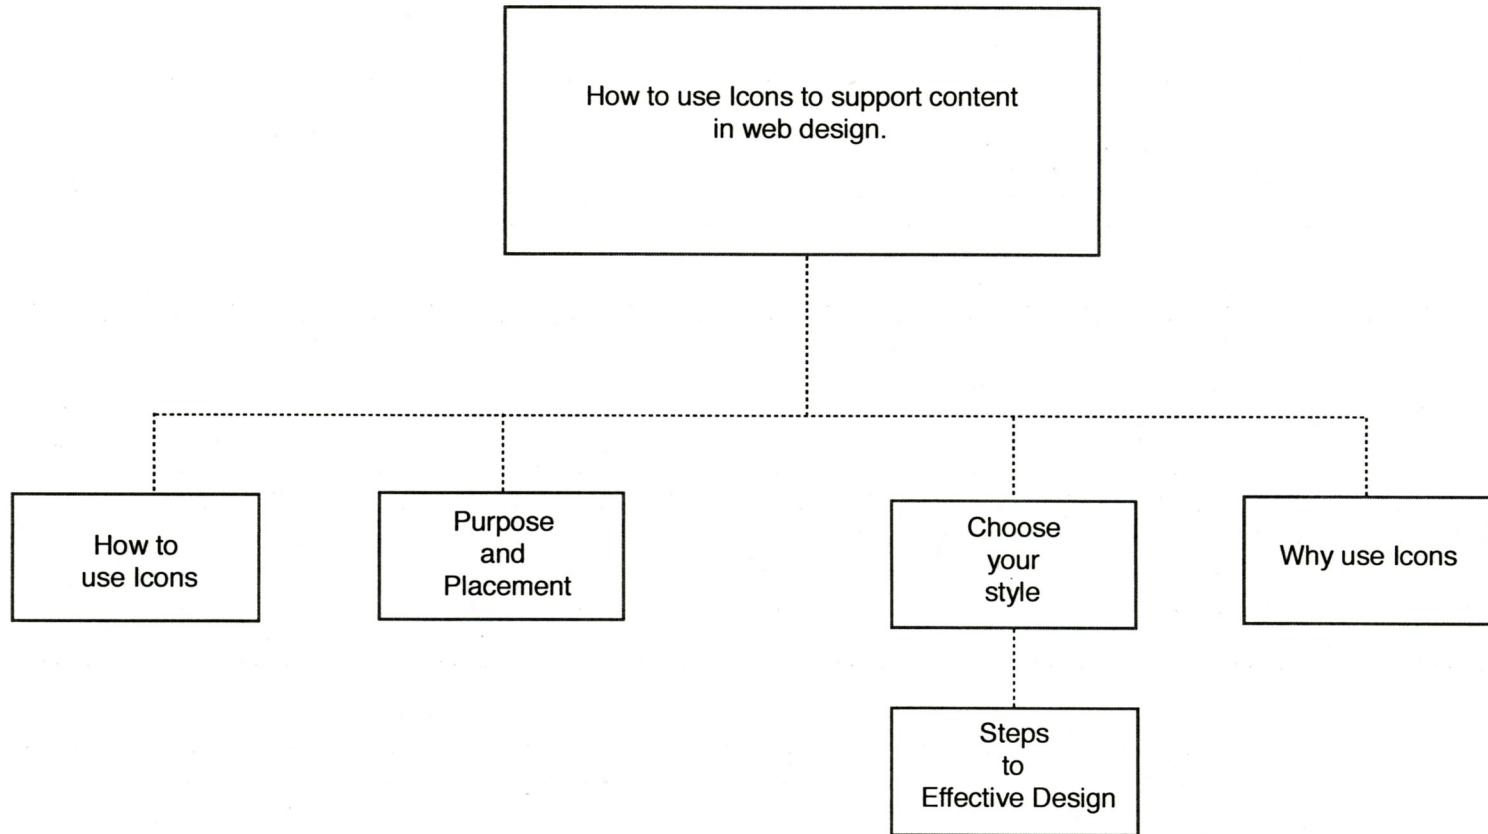

## What Action I Want People to Take
