WEBSITE STATEMENT: ROBOTOPIA- Your Personal Machina

Robotopia is a business now for personal machina.

For Business. For Military. For Industry. For Home.

Once confined to a box, our computers now are mobile in a vast array of containers -

'bodies '- for a personal experience at home and in the workplace.

We are a supplier of machina from personal, home care and surrogate companion, to simple industrial heavy duty tasking, to complex android intervention. Advances in plasma, nanotech and gyroscope now deliver more reliable and affordable automatons for almost any duty where humans are in short supply. Hazardous work conditions requiring complex motor skills are no longer an issue.

We cater to all budgets. Though our high end androids meet the demands of a select clientele, affordable track robotics are still very much in demand due to their stellar performance history.

Shop our website and contact us today for your own Personal Machina.
