Professor Thomas

Web Design 3

06 May 2016

What I Learned

- Throughout my time in the Web Design 3 course I learned how to actually work with a client and build a website to their likings.
- I also learned how to prototype. Which is important because it gives the client a visual aspect of the end product, while saving me, the designer, time and money.

* Overall, it has been a great experience, and I appreciate the process of the Web 3.
