

MACA 2880- Design for the Web 3
Kelsey Kaminski

Portfolio

Introduction

This assignment is a personal portfolio site for my portfolio. This page must show our best work in multiple categories. For this assignment I want to show off my web skills by having a clean page representing me. I am looking to show some of my best assignments that were created in multiple programs. The process begins by finding a clean template that I can work with. Then I will add in my sections such as; about me, work and contact. I want to include links to show my resume and my infographic.
