	Art Director	UX Designer	Interaction Designer
Description	The job is quality control, leadership of other designers, and client communication. A synonym could be Design Director.	A specific focus on studying and researching how people use a site. Then ushering changes for the better through the system and testing the results. May not have or need any design or implementation skill. All jobs should care about user experience, but this job lives it.	Primarily design, just like a UI Designer, but with specific focus on how things are used and movement.
Requirements	Art director positions typically require a bachelor's degree in an art or design major such as fine art, visual communications or digital media. Depending on their industry, art directors may have several years of work experience in graphic design, photography, illustration or other fields.	An aspiring UX designer can take many different routes with their education. ... To be a high-quality UX designer, you'll need all the skills that a bachelor's degree can give you. On top of a bachelor's degree, many people will add a master's degree to their UX designer resume.	Interaction designers must have a bachelor's degree in a field such as business administration, market research, graphic design or engineering.
Qualifications I meet	Experience in graphic design, photo, illustration and other fields.	Experience in graphic design, photo, illustration and other fields.	Experience in graphic design, photo, illustration and other fields.
