Printing & Embroidery

"CUSTOM APPAREL THAT IS OUT OF THIS WORLD"

Services

Screen Printing

Screen printing, also known as silk screening or silkscreen printing, is the process of transferring a stencilled design onto a surface using a mesh screen, ink, and a squeegee

Heat Transfer

Heat transferring is the process of applying an ink-based design to the product to be decorated with a heat press machine. As the name implies, a heat press machine works by using heat and pressure to apply the design to garment.

Embroidery

Embroidery is the skilled technique of embellishing and decorating a garment by hand, using stitches in silks and yarns and sometimes including sequins, beads, feathers and pearls.

Employee Fun

Planet Printing & Embroidery staff uniform

Our staff decided to make some uniforms using our screen printing method. These particular shirts were made with water-based ink, its a easy ink to work with and makes the design not as rough on the skin!

WHAT CUSTOMERS ARE SAYING

Ordered custom heat transfer apparel a year ago and still everything looks brand new! The prices are responsible and there custom service is impeccable.
