Reflection Evaluation Statements

On being a designer:

- I had a good experience being a designer. It gave me a chance to see what it's really like to interview the client about their wants, needs, and brand identity. Also, it was fun to figure out the best layout for the client's site based on their needs.

On being a client:

- It was really fun being a client. I really enjoyed coming up with what my company does and all the details about how it operates.
