

Client Brief Summary

Business Name: Family Flower

Message: The purpose of the website is to show that a local family owned florist shop that has been running for years, truly has the most variety of long lasting fresh flowers.

There is a reason that they have been as successful as they have been, and their website proves this statement.

Client Wants: My clients want the website to show the amount of products that they offer for any event or occasion in an elegant and simple way. Their color scheme is a mix of pinks, purples, black/charcoal and white – Those should be included in the overall look. They loved to stay connected with their customers whether they are new or returning.

Features:

Must include links to the social media platforms they are on

Online ordering section

Coupon for first time customers – want to continue to grow their customer base

Map on about us section that is clear and easy to read

Newsletter – Weekly Newsletter for any sales, new information, and to stay connected

Website Success: If customers find the right flowers, they want that last them longer than other flower shops they have been to. Let the work we post speak for itself.

Leaha

38 YEARS OLD

Personality: Fun, Loving, Energetic, Friendly

Favorite colors are pink and yellow.
Favorite time of year is spring, loves to be
outside gardening in the sunlight.
Something she looks forward to doing
with her daughter ever year.

Pain Points: Doesn't want to spend too much time on the
flowers in the house, has enough work outside.

Shelby

25 YEARS OLD

Personality: Quiet, Nice, Sympathetic

Currently in school to be an Interior Designer.

Loves to bake in her free time, especially cupcakes - those are her favorites.

Generally tries to keep flowers in her house at all times; In her opinions it helps at pops of color while making her place feel more at home.

Pain Points: Has a strict budget while in school, while she loves to have flowers in the house she doesn't have the extra money to constantly replace flowers.

Julie

45 YEARS OLD

Personality: Outgoing, Independent, Trustworthy

A wedding photographer since she was 21 years old.

Stays busy & is highly requested for her work.

Loves to travel in her free time , finds that some of her best trips have been done solo.

Tends to stick with one company she trust.

Pain Points: Last flower shop she used to recommend to her clients has closed, & needs to find another trustworthy one that produce them same quality products and services.

User Analysis Summary

Business Name: Family Flower

Website Users: Wants to find products that will last for home and for work needs. Needs large variety to choose from. Also be able to purchase large orders online.

Website design based on analysis:

Strong online presence – links to social media

Easy and simple navigation

Online order form

Shop flower by types

General: Keep returning customers up to date on work and new information. If the information isn't need then don't include it; Simple is better in this case. More images, less body copy. Give them a sense of what the owners/team members are about.

Brand Summary

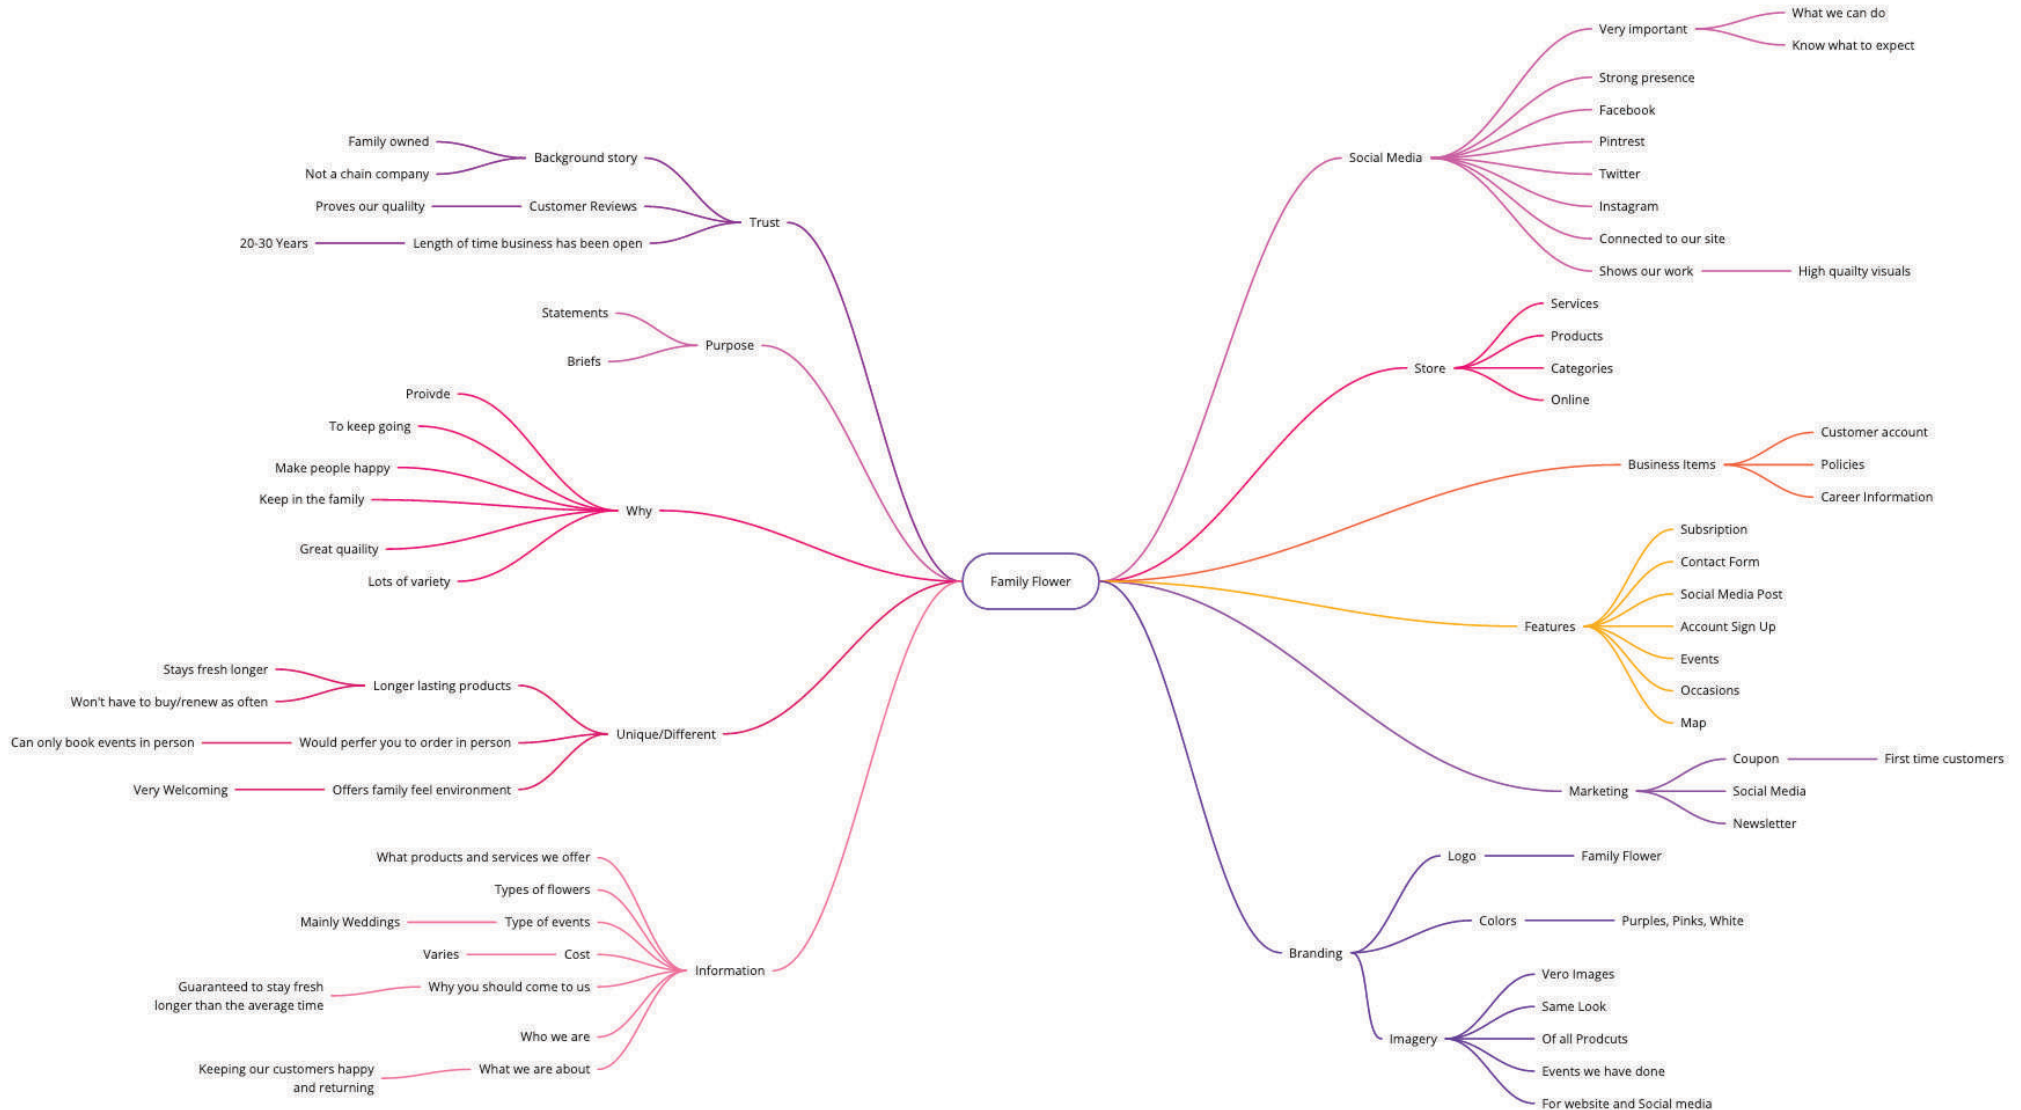

Client/Company Name: Family Flower

Brand Statement: Family Flower is a locally owned small family business (florist shop) that provides a large variety of fresh long-lasting flowers for any occasions or event needed. We love to always show our customers who we are and what we do while keeping up to date with our last work being posted to our website and social media accounts. Our hope is that you keep us in mind for all of your floral needs.

Brand Summary: While Family Flower may not be a big chain company, we take pride in our quality of flowers and being able to give our customer the flowers they wish to have especially for big events like weddings and engagements. Seeing our customers is what makes us happy, so please stay connected with us. We love to see those tags in your post!

Reflections

Evaluation of being a designer: The most difficult part of being the designer was coming up with what questions I need to ask my client, to get the amount of information I need to guide my design choices. The basic questions were easy, but those were enough. It was also different to be designing for someone else in the way you would think they would like while still making sure that I'm showing my sense of self through it as well. Overall, I liked stepping into this role, it really taught me the steps and process of knowing how to get all the information I needed from my client before the designing even begins.

Evaluation of being a Client: This part was a lot different than being the designer, I would say it was much easier but still had its challenges as well. I thought it was really interesting coming up with an idea and giving it to someone else to try to portray it in the way that I would. All the while making sure that I am giving them a clear abundance of information they needed to make the idea in head come to life. My designer was very open with communication and any thoughts that I had along the way. They understood what I wanted my website focus to be on and made it very clear in the design outcome.
